

Orientation Session Invitation

As part of Highmark’s efforts to provide its recipients with access to high-quality, cost-effective care, it has selected eviCore healthcare to provide a utilization management program for advanced imaging and cardiology services. The program will take effect December 17, 2018, for dates of service beginning January 1, 2019.

In the coming weeks, eviCore healthcare will be leading orientation sessions designed to assist you and your staff with the new advanced imaging and cardiology services program. You will be able to attend the web orientation session that works best for you and your schedule.

During these sessions we will discuss in detail the prior authorization requirements for Highmark members and how to navigate the web portal. Time and participation permitting, this orientation session will be followed by a question-and-answer session. We encourage you to attend one of these informative sessions to ensure your understanding of the new prior authorization process for advanced imaging and cardiology services.
