A checked box indicates the policy is applicable to that market either entirely, or partially, as indicated within the policy.

Reimbursement Policy designation of Professional or Facility application is based on how the provider is contracted with the Plan. This Policy supersedes direction provided in Bulletins prior to the effective date of this policy.

# PURPOSE:

This policy addresses reimbursement guidelines for vaccines provided at no cost to the provider by a state or federal agency.

# **DEFINITIONS:**

SL Modifier: State supplied vaccine

# **REIMBURSEMENT GUIDELINES:**

# Vaccines and Vaccine Administration

The Plan does not reimburse for vaccine(s) obtained at no cost to the provider. Modifier SL is used to identify the vaccine(s) was obtained at no cost to the provider. The Plan will reimburse for the administration of the vaccine(s) in accordance with the patient's benefit coverage. The SL modifier should **not** be appended to the administration code.

Report the administration of state-supplied vaccines as follows:

- 1. Procedure codes for both the vaccine supply and the administration should be submitted on the same claim.
- 2. Report the vaccine supply using the appropriate procedure code(s) and append modifier SL for the vaccines administered.

3. Report the administration service(s) with the CPT code(s) that accurately reflects the administration of the vaccine(s). <u>Do not</u> append modifier SL to the administration procedure code(s).

Administration codes include vaccine risk/benefit counseling when performed. Therefore, a separate evaluation and management (E/M) code should <u>not</u> be reported, unless performed as a separately identifiable service distinct from the vaccine administration and documented in the medical records. E/M services submitted as separately identifiable and distinct from the administration service should be reported with modifier 25 appended to the line.

Applicable Administration codes:

| *90460 | *90461 | *90471 | *90472 | *90473 | *90474 | G0008 | G0009 | G0010 |
|--------|--------|--------|--------|--------|--------|-------|-------|-------|
|        |        |        |        |        |        |       |       |       |

\*Note: Do not report codes 90460–90474 for the administration of SARS-CoV-2 (Coronavirus disease [COVID-19]) vaccines.

# Coronavirus [COVID-19] (SARS-CoV-2) Vaccine and Administration

Effective January 1, 2022, the Plan <u>will</u> separately reimburse for the vaccine(s) and administration(s) of the vaccine(s) in accordance with the patient's benefit coverage. E/M services submitted as separately identifiable and distinct from the administration service should be reported with modifier 25 appended to the line. Please see history versions of this policy for reimbursement direction prior to January 1, 2022.

Applicable coronavirus (COVID-19) vaccine codes:

91304 91311 91318 91389 91320 91321 91322

Applicable coronavirus (COVID-19) vaccine administration codes:

\*M0201 90480

Note: Report SL modifier with codes for vaccines received for free.

\*Note: M0201 will only be reimbursed in the Home place of service when billed by itself or with a coronavirus vaccine code and/or coronavirus vaccine administration code.

# Coronavirus [COVID-19] (SARS-CoV-2) Antibody Treatment and Antibody Treatment Administration

Effective January 1, 2022, the Plan <u>will</u> separately reimburse for the antibody treatment(s) and administration(s) of the antibody treatment(s) in accordance with the patient's benefit coverage, for dates of service between January 1, 2022, and the effective date in which the EUA was rescinded for that service.

E/M services submitted as separately identifiable and distinct from the administration service should be reported with modifier 25 appended. See policy history versions for direction prior to January 1, 2022.

Applicable Antibody Treatment codes:

Q0220 Q0221 Q0222 Q0240 Q0243 Q0244 Q0245 Q0247

Applicable Antibody Treatment Administration codes:

 M0220
 M0221
 M0222
 M0223
 M0240
 M0241
 M0243
 M0244

 M0245
 M0246
 M0247
 M0248
 M0250
 M0249
 Q0249

Note: Report SL modifier with codes for antibody treatments that were received for free.

The FDA has rescinded the emergency use authorization (EUA) for the monoclonal antibody therapy and COVID vaccine services listed below. These treatments, as well as the administration thereof, will not be separately reimbursed on and after the date indicated.

Effective November 30, 2022, for Bebtelovimab: Q0222 M0222 M0223

Effective April 5, 2022, for Xevudy (sotrovimab): Q0247 M0247 M0248

Effective January 24, 2022 for Bamlanivimab and Etesevimab: Q0245 M0245 M0246

A checked box indicates the policy is applicable to that market either entirely, or partially, as indicated within the policy.

Reimbursement Policy designation of Professional or Facility application is based on how the provider is contracted with the Plan. This Policy supersedes direction provided in Bulletins prior to the effective date of this policy.

# PURPOSE:

This policy addresses reimbursement guidelines for vaccines provided at no cost to the provider by a state or federal agency.

# **DEFINITIONS:**

SL Modifier: State supplied vaccine

# **REIMBURSEMENT GUIDELINES:**

# Vaccines and Vaccine Administration

The Plan does not reimburse for vaccine(s) obtained at no cost to the provider. Modifier SL is used to identify the vaccine(s) was obtained at no cost to the provider. The Plan will reimburse for the administration of the vaccine(s) in accordance with the patient's benefit coverage. The SL modifier should **not** be appended to the administration code.

Report the administration of state-supplied vaccines as follows:

- 1. Procedure codes for both the vaccine supply and the administration should be submitted on the same claim.
- 2. Report the vaccine supply using the appropriate procedure code(s) and append modifier SL for the vaccines administered.

3. Report the administration service(s) with the CPT code(s) that accurately reflects the administration of the vaccine(s). <u>Do not</u> append modifier SL to the administration procedure code(s).

Administration codes include vaccine risk/benefit counseling when performed. Therefore, a separate evaluation and management (E/M) code should <u>not</u> be reported, unless performed as a separately identifiable service distinct from the vaccine administration and documented in the medical records. E/M services submitted as separately identifiable and distinct from the administration service should be reported with modifier 25 appended to the line.

Applicable Administration codes:

| *90460 | *90461 | *90471 | *90472 | *90473 | *90474 | G0008 | G0009 | G0010 |
|--------|--------|--------|--------|--------|--------|-------|-------|-------|
|        |        |        |        |        |        |       |       |       |

\*Note: Do not report codes 90460–90474 for the administration of SARS-CoV-2 (Coronavirus disease [COVID-19]) vaccines.

Coronavirus [COVID-19] (SARS-CoV-2) Vaccine and Administration

Effective January 1, 2022, the Plan <u>will</u> separately reimburse for the vaccine(s) and administration(s) of the vaccine(s) in accordance with the patient's benefit coverage. E/M services submitted as separately identifiable and distinct from the administration service should be reported with modifier 25 appended to the line. Please see history versions of this policy for reimbursement direction prior to January 1, 2022.

Applicable coronavirus (COVID-19) vaccine codes:

91300 91301 91303 91304 91305 91306 91307 91308 91309 91311 91318 91389 91320 91321 91322

Applicable coronavirus (COVID-19) vaccine administration codes:

| 0001A | 0002A | 0003A     | 0004A  | 0011A | 0012A | 0013A | 0031A | 0034A | 0041A | 0042A  |
|-------|-------|-----------|--------|-------|-------|-------|-------|-------|-------|--------|
| 0044A | 0051A | 0052A     | 0053A  | 0054A | 0064A | 0071A | 0072A | 0073A | 0074A | 0081A  |
| 0082A | 0083A | 0091A     | 0092A  | 0093A | 0094A | 0104A | 0111A | 0112A | 0113A | *M0201 |
| 90480 |       | $\bigvee$ | $\sim$ | •     |       |       |       |       |       | *M0201 |

Note: Report SL modifier with codes for vaccines received for free.

\*Note: M0201 will only be reimbursed in the Home place of service when billed by itself or with a coronavirus vaccine code and/or coronavirus vaccine administration code.

# Coronavirus [COVID-19] (SARS-CoV-2) Antibody Treatment and Antibody Treatment Administration

Effective January 1, 2022, the Plan <u>will</u> separately reimburse for the antibody treatment(s) and administration(s) of the antibody treatment(s) in accordance with the patient's benefit coverage, for dates of service between January 1, 2022, and the effective date in which the EUA was rescinded for that service.

E/M services submitted as separately identifiable and distinct from the administration service should be reported with modifier 25 appended. See policy history versions for direction prior to January 1, 2022.

Applicable Antibody Treatment codes:

Q0220 Q0221 Q0222 Q0240 Q0243 Q0244 Q0245 Q0247

Applicable Antibody Treatment Administration codes:

| M0220 | M0221 | M0222 | M0223 | M0240 | M0241 | M0243 | M0244 |
|-------|-------|-------|-------|-------|-------|-------|-------|
| M0245 | M0246 | M0247 | M0248 | M0250 | M0249 | Q0249 |       |

**Note:** Report SL modifier with codes for antibody treatments that were received for free.

The FDA has rescinded the emergency use authorization (EUA) for the monoclonal antibody therapy and COVID vaccine services listed below. These treatments, as well as the administration thereof, will not be separately reimbursed on and after the date indicated.

Effective November 30, 2022, for Bebtelovimab: Q0222 M0222 M0223

Effective April 5, 2022, for Xevudy (sotrovimab): Q0247 M0247 M0248

A checked box indicates the policy is applicable to that market either entirely, or partially, as indicated within the policy.

Reimbursement Policy designation of Professional or Facility application is based on how the provider is contracted with the Plan. This Policy supersedes direction provided in Bulletins prior to the effective date of this policy.

# PURPOSE:

This policy addresses reimbursement guidelines for vaccines provided at no cost to the provider by a state or federal agency.

# **DEFINITIONS:**

SL Modifier: State supplied vaccine

# **REIMBURSEMENT GUIDELINES:**

# Vaccines and Vaccine Administration

The Plan does not reimburse for vaccine(s) obtained at no cost to the provider. Modifier SL is used to identify the vaccine(s) was obtained at no cost to the provider. The Plan will reimburse for the administration of the vaccine(s) in accordance with the patient's benefit coverage. The SL modifier should **not** be appended to the administration code.

Report the administration of state-supplied vaccines as follows:

- 1. Procedure codes for both the vaccine supply and the administration should be submitted on the same claim.
- 2. Report the vaccine supply using the appropriate procedure code(s) and append modifier SL for the vaccines administered.

3. Report the administration service(s) with the CPT code(s) that accurately reflects the administration of the vaccine(s). <u>Do not</u> append modifier SL to the administration procedure code(s).

Administration codes include vaccine risk/benefit counseling when performed. Therefore, a separate evaluation and management (E/M) code should <u>not</u> be reported, unless performed as a separately identifiable service distinct from the vaccine administration and documented in the medical records. E/M services submitted as separately identifiable and distinct from the administration service should be reported with modifier 25 appended to the line.

Applicable Administration codes:

| *90460 | *90461 | *90471 | *90472 | *90473 | *90474 | G0008 | G0009 | G0010 |
|--------|--------|--------|--------|--------|--------|-------|-------|-------|
|        |        |        |        |        |        |       |       |       |

\*Note: Do not report codes 90460–90474 for the administration of SARS-CoV-2 (Coronavirus disease [COVID-19]) vaccines.

Coronavirus [COVID-19] (SARS-CoV-2) Vaccine and Administration

Effective January 1, 2022, the Plan <u>will</u> separately reimburse for the vaccine(s) and administration(s) of the vaccine(s) in accordance with the patient's benefit coverage. E/M services submitted as separately identifiable and distinct from the administration service should be reported with modifier 25 appended to the line. Please see history versions of this policy for reimbursement direction prior to January 1, 2022.

Applicable coronavirus (COVID-19) vaccine codes:

91300 91301 91303 91304 91305 91306 91307 91308 91309 91311 91312 91313 91314 91315 91316 91317

Applicable coronavirus (COVID-19) vaccine administration codes:

| 0001A | 0002A  | 0003A | 0004A | 0011A | 0012A | 0013A | 0031A | 0034A | 0041A | 0042A |
|-------|--------|-------|-------|-------|-------|-------|-------|-------|-------|-------|
| 0044A | 0051A  | 0052A | 0053A | 0054A | 0064A | 0071A | 0072A | 0073A | 0074A | 0081A |
| 0082A | 0083A  | 0091A | 0092A | 0093A | 0094A | 0104A | 0111A | 0112A | 0113A | 0121A |
|       | 0134A  |       |       | 0144A | 0151A | 0154A | 0164A | 0171A | 0172A | 0173A |
| 0174A | *M0201 |       |       |       |       |       |       |       |       |       |

Note: Report SL modifier with codes for vaccines received for free.

\*Note: M0201 will only be reimbursed in the Home place of service when billed by itself or with a coronavirus vaccine code and/or coronavirus vaccine administration code.

# Coronavirus [COVID-19] (SARS-CoV-2) Antibody Treatment and Antibody Treatment Administration

Effective January 1, 2022, the Plan <u>will</u> separately reimburse for the antibody treatment(s) and administration(s) of the antibody treatment(s) in accordance with the patient's benefit coverage, for dates of service between January 1, 2022, and the effective date in which the EUA was rescinded for that service.

E/M services submitted as separately identifiable and distinct from the administration service should be reported with modifier 25 appended. See policy history versions for direction prior to January 1, 2022.

Applicable Antibody Treatment codes:

Q0220 Q0221 Q0222 Q0240 Q0243 Q0244 Q0245 Q0247

Applicable Antibody Treatment Administration codes:

| M0220 | M0221 | M0222 | M0223 | M0240 | M0241 | M0243 | M0244 |
|-------|-------|-------|-------|-------|-------|-------|-------|
| M0245 | M0246 | M0247 | M0248 | M0250 | M0249 | Q0249 |       |

**Note:** Report SL modifier with codes for antibody treatments that were received for free.

The FDA has rescinded the emergency use authorization (EUA) for the monoclonal antibody therapy and COVID vaccine services listed below. These treatments, as well as the administration thereof, will not be separately reimbursed on and after the date indicated.

Effective November 30, 2022, for Bebtelovimab: Q0222 M0222 M0223

Effective April 5, 2022, for Xevudy (sotrovimab): Q0247 M0247 M0248

A checked box indicates the policy is applicable to that market either entirely, or partially, as indicated within the policy.

Reimbursement Policy designation of Professional or Facility application is based on how the provider is contracted with the Plan. This Policy supersedes direction provided in Bulletins prior to the effective date of this policy.

# PURPOSE:

This policy addresses reimbursement guidelines for vaccines provided at no cost to the provider by a state or federal agency.

# **DEFINITIONS:**

SL Modifier: State supplied vaccine

# **REIMBURSEMENT GUIDELINES:**

# Vaccines and Vaccine Administration

The Plan does not reimburse for vaccine(s) obtained at no cost to the provider. Modifier SL is used to identify the vaccine(s) was obtained at no cost to the provider. The Plan will reimburse for the administration of the vaccine(s) in accordance with the patient's benefit coverage. The SL modifier should **not** be appended to the administration code.

Report the administration of state-supplied vaccines as follows:

- 1. Procedure codes for both the vaccine supply and the administration should be submitted on the same claim.
- 2. Report the vaccine supply using the appropriate procedure code(s) and append modifier SL for the vaccines administered.

3. Report the administration service(s) with the CPT code(s) that accurately reflects the administration of the vaccine(s). <u>Do not</u> append modifier SL to the administration procedure code(s).

Administration codes include vaccine risk/benefit counseling when performed. Therefore, a separate evaluation and management (E/M) code should <u>not</u> be reported, unless performed as a separately identifiable service distinct from the vaccine administration and documented in the medical records. E/M services submitted as separately identifiable and distinct from the administration service should be reported with modifier 25 appended to the line.

Applicable Administration codes:

| *90460 | *90461 | *90471 | *90472 | *90473 | *90474 | G0008 | G0009 | G0010 |
|--------|--------|--------|--------|--------|--------|-------|-------|-------|
|        |        |        |        |        |        |       |       |       |

\*Note: Do not report codes 90460–90474 for the administration of SARS-CoV-2 (Coronavirus disease [COVID-19]) vaccines.

Coronavirus [COVID-19] (SARS-CoV-2) Vaccine and Administration

Effective January 1, 2022, the Plan <u>will</u> separately reimburse for the vaccine(s) and administration(s) of the vaccine(s) in accordance with the patient's benefit coverage. E/M services submitted as separately identifiable and distinct from the administration service should be reported with modifier 25 appended to the line. Please see history versions of this policy for reimbursement direction prior to January 1, 2022.

Applicable coronavirus (COVID-19) vaccine codes:

91300 91301 91303 91304 91305 91306 91307 91308 91309 91311 91312 91313 91314 91315 91316 91317

Applicable coronavirus (COVID-19) vaccine administration codes:

| 0001A | 0002A  | 0003A | 0004A | 0011A | 0012A | 0013A | 0031A | 0034A | 0041A | 0042A |
|-------|--------|-------|-------|-------|-------|-------|-------|-------|-------|-------|

|       | 0134A  |       |       | 0144A | 0151A | 0154A | 0164A | 0171A | 0172A | 0173A |
| 0174A | *M0201 |       |       |       |       |       |       |       |       |       |

Note: Report SL modifier with codes for vaccines received for free.

\*Note: M0201 will only be reimbursed in the Home place of service when billed by itself or with a coronavirus vaccine code and/or coronavirus vaccine administration code.

# Coronavirus [COVID-19] (SARS-CoV-2) Antibody Treatment and Antibody Treatment Administration

Effective January 1, 2022, the Plan <u>will</u> separately reimburse for the antibody treatment(s) and administration(s) of the antibody treatment(s) in accordance with the patient's benefit coverage, for dates of service between January 1, 2022, and the effective date in which the EUA was rescinded for that service.

E/M services submitted as separately identifiable and distinct from the administration service should be reported with modifier 25 appended to the line. See policy history versions for direction prior to January 1,

2022.

Applicable Antibody Treatment codes:

Q0220 Q0221 Q0222 Q0240 Q0243 Q0244 Q0245 Q0247

Applicable Antibody Treatment Administration codes:

Reimbursement Policy designation of Professional or Facility application is based on how the provider is contracted with the Plan. This Policy supersedes direction provided in Bulletins prior to the effective date of this policy.

PURPOSE:

| This policy addresses reimbu | rsement guidelines | for vaccine | s provided at no | cost to the provide | r by a state |
|------------------------------|--------------------|-------------|------------------|---------------------|--------------|
| or federal agency.           |                    | ~           | ,                |                     | 5            |

DEFINITIONS

SL Modifier: State supplied vaccine

**REIMBURSEMENT GUIDELINES:** 

# Vaccines and Vaccine Administration

The Plan does not reimburse for vaccine(s) obtained at no cost to the provider. Modifier SL is used to identify the vaccine(s) was obtained at no cost to the provider. The Plan will reimburse for the UXa ]b]ghfUh]cb'cZh,Y'j UW]bYfgE']b'UW¢fXUbW'k ]h,'h,Y'dUh]Ybhg benefit coverage. The SL modifier should not be appended to the administration code.

Report the administration of state-supplied vaccines as follows:

1. Procedure codes for both the vaccine supply and the administration should be submitted on the same claim.

- 2. Report the vaccine supply using the appropriate procedure code(s) and append modifier SL for the vaccines administered.
- 3. Report the administration service(s) with the CPT code(s) that accurately reflects the administration of the vaccine(s). <u>Do not</u> append modifier SL to the administration procedure code(s).

Administration codes include vaccine risk/benefit counseling when performed. Therefore, a separate evaluation and management (E/M) code should <u>not</u> be reported, unless performed as a separately identifiable service distinct from the vaccine administration and documented in the medical records. E/M services submitted as separately identifiable and distinct from the administration service should be reported with modifier 25 appended to the line.

Applicable Administration codes:

\*90460 \*90461 \*90471 \*90472 \*90473 \*90474 G0008 G0009 G0010

\*Note: Do not report codes 90460Ë90474 for the administration of SARS-CoV-2 (Coronavirus disease [COVID-19]) vaccines.

# Coronavirus [COVID-19] (SARS-CoV-2) Vaccine and Administration

Effective January 1, 2022, the Plan <u>will</u> separately reimburse for the vaccine(s) and administration(s) of the j UWJbYfbEJb'UWcfXUbW'k Jh. 'h.Y'dUJYbhB VYbYZhWcj YfU[Y" E/M services submitted as separately identifiable and distinct from the administration service should be reported with modifier 25 appended to the line. Please see history versions of this policy for reimbursement direction prior to January 1, 2022.

Applicable coronavirus (COV/D-19) vaccine codes:

| 91300 | 91301 | 91303 | 91304 | 91305 | 91306 | 91307 | 91308 |
|-------|-------|-------|-------|-------|-------|-------|-------|
| 91309 | 91311 | 91312 | 91313 | 91314 | 91315 | 91316 | 91317 |

Applicable coronavirus (COVID-19) vaccine administration codes:

| 0001A | 0002A | 0003A | 0004A | 0011A | 0012A | 0013A  | 0031A | 0034A | 0041A | 0042A |
|-------|-------|-------|-------|-------|-------|--------|-------|-------|-------|-------|
|       |       |       |       |       |       | 0071A  |       |       |       |       |
| 0082A | 0083A | 0091A | 0092A | 0093A | 0094A | 0104A  | 0111A | 0112A | 0113A | 0124A |
| 0134A | 0144A | 0154A | 0164A | 0173A | 0174A | *M0201 |       |       |       |       |

Note: Report SL modifier with codes for vaccines received for free.

\*Note: M0201 will only be reimbursed in the Home place of service when billed by itself or with a coronavirus vaccine code and/or coronavirus vaccine administration code.

# Coronavirus [COVID-19] (SARS-CoV-2) Antibody Treatment and Antibody Treatment Administration

Effective January 1, 2022, the Plan <u>will</u> separately reimburse for the antibody treatment(s) and UXa ]b]ghfUh]cbfgEcZhXYUbh]VcXmhfYUha YbhfgE]b'UWtefXUbW'k ]h. 'h.Y'dUh]Ybhg'VYbYZ]hVtej YfU[Y, for dates of service between January 1, 2022, and the effective date in which the EUA was rescinded for that service.

E/M services submitted as separately identifiable and distinct from the administration service should be reported with modifier 25 appended to the line. See policy history versions for direction prior to January 1, 2022.

Applicable Antibody Treatment codes:

Q0220 Q0221 Q0222 Q0240 Q0243 Q0244 Q0245 Q0247

Applicable Antibody Treatment Administration codes:

 M0220
 M0221
 M0222
 M0223
 M0240
 M0241
 M0243
 M0244

 M0245
 M0246
 M0247
 M0248
 M0250
 M0249
 Q0249

Note: Report SL modifier with codes for antibody treatments that were received for free.

The FDA has rescinded the emergency use authorization (EUA) for the monoclonal antibody therapy services listed below. These treatments, as well as the administration thereof, will not be separately reimbursed on and after the date indicated.

Effective November 30, 2022, for Bebtelovimab: Q0222 M0222 M0223

Effective April 5, 2022, for Xevudy (sotrovimab): Q0247 M0248 M0248

Effective January 24, 2022 for Bamlanivimab and Etesevimab: 00245 M0245 M0246

Effective January 24, 2022, for Castrivimab and Imdevimab:

Q0240 Q0243 Q0244 M0240 M0241 M0243 M0244

Effective January 26, 2023, for Tixagevimab and Cilgavimab: Q0220 Q0221 M0220 M0221
