➔ A checked box indicates the policy is applicable to that market either entirely, or partially, as indicated within the policy.

Reimbursement Policy designation of Professional or Facility application is based on how the provider is contracted with the Plan. This Policy supersedes direction provided in Bulletins prior to the effective date of this policy.

PURPOSE:

This policy defines incremental nursing and addresses the Plans position when charges are submitted for consideration on reimbursement for services.

REIMBURSEMENT GUIDELINES:

Incremental nursing is defined as extraordinary charges for nursing services assessed in addition to the normal nursing charge associated with the typical room and board unit. The following revenue codes that begin with 023x represent Incremental nursing charges:

Rev Code	Description
0230	General Classification
0231	Nursery
0232	OB
0233	ICU
0234	CCU
0235	Hospice
0239	Other

Outpatient Services:

When reporting Incremental nursing for services rendered on an outpatient basis, the facility must report the revenue code with the appropriate HCPCS code for services to be considered for reimbursement.

Inpatient Services:

The revenue codes for incremental nursing typically are bundled into the room and board charge reported on the claim. The Plan will not make separate reimbursement for these services.
