CORRECTION: MEDICAL POLICY M-13: INTRAOPERATIVE NEUROPHYSIOLOGIC MONITORING

When Medical Policy M-13: Intraoperative Neurophysiologic Monitoring (Sensory-Evoked Potentials, Motor-Evoked Potentials, EEG Monitoring) was published on January 1, 2021, code 92652 was omitted.

This was corrected on **January 5, 2021**. You can now see code 92652 in the policy by searching for the policy on the **Medical Policy Search** page of the **Provider Resource Center**.
