## ELIGIBLE DIAGNOSIS CODES ADDED TO INTRA-ARTERIAL/INTRAVENOUS THERAPEUTIC PROCEDURES COMMERCIAL MEDICAL POLICY

On Oct. 8, 2018, Highmark's Commercial Medical Policy S-82, Intra-Arterial/Intravenous Therapeutic Procedures, was published without the corresponding ICD-10-CM diagnosis codes.

We've since updated Commercial Medical Policy S-82 by adding the covered diagnosis codes for procedure codes 37246, 37247, 37248, and 37249.

To locate the updated version of Medical Policy S-82:

1. Go to Highmark's Provider Resource Center.
2. Search all medical policies under the **CLAIMS, PAYMENT & REIMBURSEMENT** section, or use the **Quicklinks Bar** and select **MEDICAL POLICY SEARCH**.
3. Select the link for Medical Policy S-82.
