EVICORE MODIFIES LABORATORY MANAGEMENT CLINICAL GUIDELINES

REVISED GUIDELINES BECOME EFFECTIVE JULY 2, 2018

eviCore is revising its *Laboratory Management Clinical Guidelines* for molecular and genetic tests by adding new guidelines, retiring certain guidelines, and making changes to existing criteria. Highmark will amend the clinical guidelines within our applicable medical policies according to eviCore's modifications.

Please review the [Executive Summary](#) for an explanation of eviCore's revisions. You can find more details at evicore.com/healthplan/highmark_Lab.

To learn more about the Laboratory Management Program and how to submit prior authorization requests through eviCore, please visit the **Laboratory Management Program** page, located under **Care Management Programs** on the Provider Resource Center.

Highmark's medical policies are available on the Provider Resource Center under the **Claims, Payment & Reimbursement** option. Once you choose **Claims, Payment & Reimbursement**, then select **Medical Policy**. For faster access to our medical policies, you can select **Medical Policy Search** from the Quicklinks bar on the Provider Resource Center.
