MEDICAL POLICY M-28: NERVE CONDUCTION STUDIES AND ELECTROMYOGRAPHY

Now Includes Procedure Codes 0108T, 0109T, and 0110T

When Medical Policy M-28, Nerve Conduction Studies and Electromyography, was published on November 27, 2017, three (3) procedure codes were inadvertently omitted at the time of publication. These codes were as follows: 0108T, 0109T, and 0110T.

The policy has now been updated, effective April 14, 2020, to display all applicable procedure codes, including **0108T**, **0109T**, and **0110T**.

Medical Policy M-28 can be accessed from the Provider Resource Center by selecting **CLAIMS, PAYMENT & REIMBURSEMENT**, and then clicking on **Medical Policy**.
