ATTN: REFERRING PHYSICIANS EXPANDED ACCESS TO INFUSED DRUG THERAPY

As part of Highmark's ongoing commitment to deliver value and convenience to our members, we are expanding service providers for a select group of specialty infusion drugs to include Home Infusion Therapy (HIT) providers. You may refer your patients to [network HIT providers](#) for home administration of the drugs listed below.

These drugs can be safely and effectively administered in the home for a majority of patients.

Procedure Code	Drug Name
J1745	Remicade®
J1569	Gammagard®
J1561	Gamunex®- C
J1459	Privigen®
J1568	Octagam®
J1557	Gammaplex®
J1556	Bivigam®
J1572	Flebogamma®
J1566	Carimune® NF, Gammagard® S/D
J0490	Benlysta®
J1300	Soliris®
J1743	Elaprase®
J0180	Fabrazyme®
J0129	Orencia®
J3262	Actemra®
J0221	Lumizyme®
J1786	Cerezyme®
J0256	Aralast™
J0597	Berinert®
J0257	Glassia
J3385	Vpriv™

Procedure Code	Drug Name
J1322	Vimizim™
J1602	Simponi® Aria
J3380	Entyvio®

We encourage you to consider [HIT providers](#) as convenient and cost-effective options for treating your patients. You will not need to request a new authorization, if you already have one in place for your current patients.

Highmark appreciates your continued commitment to solutions that provide members with support of family, comfort and, mobility considerations.
