ASPIRE HEALTH TRANSITIONS

As a reminder, effective **December 31, 2021**, Highmark will end its contract with Aspire Health. Highmark's Enhanced Community Care Management (ECCM) program will replace Aspire as Highmark's community-based supportive and palliative care program.

Aspire Health will no longer accept direct referrals after October 1, 2021. After October 1, 2021, send all new referrals for supportive and palliative care services to ECCM. Review the [Highmark's ECCM Program to Replace Aspire Health By The End of 2021](#) eBulletin for guidance on how to refer patients to Highmark's ECCM program.

TRANSITIONING MEMBERS TO ECCM

In preparation for the full replacement of Aspire Health, we will begin transitioning members currently active with Aspire to ECCM on the following schedule based on the member's zip code.

If you have a member who is currently working with Aspire, you will receive a letter with the member's name(s) informing you that they have transferred to Highmark's ECCM program.
