PROCESSING YOUR COVERAGE REQUEST

Formulary restrictions are in place for reasons such as to support dosing according to FDA-labeled indications and to ensure patient safety. Restrictions are **not** meant to discourage the appropriate use of medications.

Your request for medication coverage can be processed more efficiently when you:

- Recognize applicable restrictions;
- Use the restriction icons and/or **Pharmacy Policy – SEARCH** to identify what medical information is required; and
- Submit complete information on the Prescription Drug Medication Request form to Highmark.

Doing so will help to minimize any delays in access to medication for your patients.
