## Reimbursement Changes for Respiratory Panels that Test for 5 or More Pathogens

Highmark is committed to ensuring members receive appropriate care based on well-established, evidence-based clinical guidelines that result in better outcomes and lower costs. To promote medically necessary and cost-efficient patient care, Highmark is reducing the reimbursement for respiratory pathogen panels that check for the presence of 5 or more pathogens, **effective July 1, 2024**.

Respiratory pathogen panels that test for **fewer** than 5 pathogens are effective for detecting three of the most common respiratory infections — COVID-19, respiratory syncytial virus (RSV), and influenza — while also being less expensive.

### Coding Information

No reimbursement changes are occurring for respiratory pathogen panels (fewer than 5 pathogens) represented by these two codes: **87637** and **0241U**.

The following four codes for respiratory pathogen panels (5 or more pathogens) will be affected by this reduction in reimbursement: 0202U BioFire, 0223U, 0225U, and 0373U. These four codes will be reimbursed at the rates for codes **87637** and **0241U**.

**Note:** *This reimbursement change does not apply to New York providers or providers with unique fee arrangements.*

The following entities, which serve the noted regions, are independent licensees of the Blue Cross Blue Shield Association: Western and Northeastern PA: Highmark Inc. d/b/a Highmark Blue Cross Blue Shield, Highmark Choice Company, Highmark Health Insurance Company, Highmark Coverage Advantage Inc., Highmark Benefits Group Inc., First Priority Health, First Priority Life or Highmark Senior Health Company.
