How to Submit Prior Authorization Requests for Outpatient Physical Medicine Services

Prior authorization is required for outpatient physical medicine services. When requesting prior authorization for these services via the Predictal™ Auth Automation Hub in [Avality®](#), providers must select “Physical Medicine” as a Sub-service Type.

During the authorization submission process in Predictal, providers should — once they have entered the Diagnosis Information for the member — follow the steps below:

- Enter **Service Information**.
- Select the **Sub-service Type** dropdown. For Physical Medicine, choose **Physical Medicine**.
 - Sub-service types will show relevant procedure codes included in the Sub-service Type.
- Select **Add** to add the Sub-service Type.
- Select **Physical Medicine**.
 - If you don't see the code(s) for Physical Medicine Sub-service Type, please select the Occupational Therapy Sub-service Type and check for the relevant code(s).
- Select **Add**. Click **Submit** at bottom right when all applicable selections are made.

The screenshot displays a list of sub-service types in a software interface. Each entry includes a warning icon, a list of procedure codes, a dropdown for the sub-service type, a date field for the proposed date of service, a checkbox for 'Is this a primary service?', and a 'Remove' button. Two blue arrows point to the 'Remove' buttons for the 'Physical Medicine' and 'Occupational Therapy' entries.
