

# Improving Bladder Control (Profiled)

Topic	Explanation
<b>Measure Type</b>	Profiled Static Star Measure
<b>Description of the Measure</b>	Percent of Medicare Advantage plan members 65 years and older who had a discussion regarding the presence or absence of urinary incontinence during the measurement year.
<b>Eligible Population</b>	All Medicare Advantage members 65 years of age and older. <b>Exclusions:</b> <ul style="list-style-type: none"> <li>• Continuous Enrollment during the measurement year with no more than a gap of 45 days during the measurement year.</li> <li>• Must be enrolled in plan at the end of the year.</li> </ul>
<b>Compliant Member</b>	Appropriate documentation contained within the medical record showing a discussion regarding the presence or absence of urinary incontinence was held with a certified medical professional during the measurement year.
<b>How to Submit to Highmark Inc.</b>	<ul style="list-style-type: none"> <li>• Submit a claim using the CPTII code <b>1090F</b> or <b>0509F</b>.</li> <li>• Submit proof of discussion via the Clinical Quality Feedback Loop only if not captured by Highmark claims. Allow at least 45 days for claims to process before submitting through the CQF Loop.</li> </ul>
<b>Best Practices</b>	<ul style="list-style-type: none"> <li>• Identify non-compliant patients.</li> <li>• Prep chart to address with patient next office visit.</li> <li>• Provide ongoing outreach efforts to non-compliant patients.</li> <li>• Review chart notes for evidence of compliance that can be submitted via the Clinical Quality Feedback Loop.</li> <li>• Be proactive. Evaluate practice processes for opportunities to close gaps every time the patient is seen rather than reacting to gap closure reports.</li> </ul>
<b>Other</b>	Improving Bladder Control is based on the CMS Health Outcomes survey. Please see additional information on the HOS survey found later in this booklet.
