

Medicare Advantage PCPs – Members may be contacting you about their Annual Wellness Visit (AWV)

Posted: 04/08/2013

In late March, Highmark will mail letters to our eligible Medicare Advantage members reminding them to schedule their AWV, which is a covered benefit. Please alert your staff that Medicare Advantage members may be contacting your practice in coming weeks to make appointments to receive this important wellness exam. For more information about the AWV, visit our *Geriatric Resource Binder* (under *Clinical Reference Materials* category on left menu) on the Provider Resource Center, where you will find the Annual Wellness Visit (AWV) Provider Toolkit. We thank you for your dedication to serving all of our members, including those enrolled in Medicare Advantage.
