

SPECIAL eBULLETIN

June 2015

2ND QUARTER 2015 UPDATE CHANGES TO THE HIGHMARK DRUG FORMULARIES

Following is the 2nd Quarter 2015 update to the Highmark Drug Formularies and pharmaceutical management procedures. The formularies and pharmaceutical management procedures are updated on a quarterly basis, and the following changes reflect the decisions made in March 2015 by our Pharmacy and Therapeutics Committee. These updates are effective on the dates noted throughout this document.

Please reference the guide below to navigate this communication:

Section I. Highmark Comprehensive and Progressive Formularies

- A. Changes to the Highmark Comprehensive Formulary and the Highmark Comprehensive Health Care Reform Formulary
- B. Changes to the Highmark Progressive Formulary and the Highmark Progressive Health Care Reform Formulary
- C. Updates to the Pharmacy Utilization Management Programs
 - 1. Updates to the Prior Authorization Program
 - 2. Updates to the Managed Prescription Drug Coverage (MRxC) Program
 - 3. Updates to the Quantity Level Limit (QLL) Program

Section II. Highmark Medicare-approved Formularies

- A. Changes to the Highmark Medicare-approved 5-Tier Incentive Formulary
- B. Changes to the Highmark Medicare-approved 5-Tier Closed Formulary
- C. Additions to the Specialty Tier
- D. Updates to the Pharmacy Utilization Management Programs
 - 1. Updates to the Prior Authorization Program
 - 2. Updates to the Managed Prescription Drug Coverage (MRxC) Program
 - 3. Updates to the Quantity Level Limit (QLL) Program

If you have any questions regarding this pharmacy communication or the Highmark formularies, please contact your Provider Relations Representative or Provider Relations Consultant.

As an added convenience, you can also search the Highmark Drug Formularies online at <https://prc.highmarkblueshield.com/rscprc/hbs/pub?document=https%3A/www.highmarkblueshield.com/health/documents/pharm-form.html&docId=78>. This function allows you to search by the drug name or therapeutic class. (NaviNet[®] users: Simply click on the *Resource Center* button and select the *Pharmacy/Formulary Information* link.)

Camp Hill, PA 17089

Important Drug Safety Updates

Use of Testosterone Products

On March 3, 2015, the FDA required a change in labeling to inform the public of possible increased risk for heart attack and stroke with use of testosterone products for low testosterone due to aging, as the benefits and safety of these drugs have not been established in this population. The FDA recommends only utilizing testosterone for labeled approved uses, and for health care professionals to only prescribe testosterone therapy for men with low testosterone levels caused by approved conditions that have been verified by laboratory tests and studies (i.e. hypogonadism in men with disorders of the testicles, pituitary gland or brain).

Use of Amiodarone with Select Hepatitis C Agents

On March 24, 2015, the FDA issued a warning of serious slowing of the heart rate when the antiarrhythmic agent amiodarone is used with hepatitis C treatments containing sofosbuvir (Sovaldi or Harvoni) in combination with another direct-acting antiviral drug. Based on post-marketing adverse event reports, the FDA recommends against the addition of Sovaldi or Harvoni combined with another direct-acting antiviral (e.g. Olysio), with amiodarone. If alternatives are not available, heart monitoring is recommended in an inpatient setting for the first 48 hours of therapy, followed by daily self-monitoring for at least two weeks.

Highmark Formulary Update – June 2015

SECTION I. Highmark Comprehensive and Progressive Formularies

A. Changes to the Highmark Comprehensive Formulary and the Highmark Comprehensive Health Care Reform Formulary

The Highmark Pharmacy and Therapeutics Committee has reviewed the medications listed in the tables below. Please note that the Highmark Comprehensive Closed/Incentive Formulary is a complete subset of the Open Formulary; therefore, all medications added to the Comprehensive Closed/Incentive Formulary are automatically added to the Open Formulary. These updates are effective as of the dates noted throughout this document. For your convenience, you can search the Highmark Comprehensive Formulary or the Highmark Comprehensive Health Care Reform Formulary online at <http://highmark.formularies.com>. Note: You must click the hyperlink for the Highmark Comprehensive Health Care Reform Formulary.

Highmark is happy to inform you that Table 1 includes products that have been added to the formulary. Adding products to the formulary may mean lower copays or coinsurance rates for members. By adding products to the formulary, Highmark hopes this will promote adherence to maintenance products and improve the overall health of our members.

Table 1: Products Added (All products added to the formulary effective immediately unless otherwise noted)

Brand Name	Generic Name	Comments
Prezcobix™	darunavir/cobicistat	For the treatment of HIV-1 infection in combination with other antiretroviral agents for treatment-naïve and treatment-experienced adults
Evotaz™	atazanavir/cobicistat	For the treatment of HIV-1 infection in combination with other antiretroviral agents for treatment-naïve and treatment-experienced adults
Dutrebis™	lamivudine/raltegravir	For the treatment of HIV-1 infection
Gilenya®	fingolimod	For the treatment of multiple sclerosis <i>Effective Date: 04/01/2015</i>
Linzess®	linalotide	For the treatment of irritable bowel syndrome with constipation (IBS-C) or chronic idiopathic constipation (CIC) <i>Effective Date: 04/01/2015</i>

Table 2: Products Not Added*

Brand Name	Generic Name	Preferred Alternatives
Lynparza™	olaparib	Provider discretion
Savaysa™	edoxaban	Xarelto®, Eliquis®, Pradaxa®
Cosentyx™	secukinumab	Humira®, Enbrel®
Natpara®	parathyroid hormone	Provider discretion
Xtoro™	finfloxacin otic suspension	acetic acid, acetic acid/hydrocort, ofloxacin, neomycin/poly/hydrocort
Soolantra™	Ivermectin cream	Finacea® gel, metronidazole
Saxenda®	liraglutide (rDNA origin) injection	Provider discretion
Namzaric™	memantine HCl & donepezil HCl	donepezil, Exelon® patch
Rytary™	carbidopa/levodopa	carbidopa/levodopa IR and ER
Duopa™	carbidopa/levodopa	carbidopa/levodopa IR and ER
Prestalia®	perindopril arginine & amlodipine	perindopril, amlodipine

	besylate	
Glyxambi®	empagliflozin/linagliptin	Invokana®, Tradjenta®, Januvia®
Lenvima™	lenvatinib	Provider discretion
Ibrance®	palbociclib	anastrozole, letrozole, tamoxifen
Farydak®	panobinostat	Revlimid®
Pazeo™	olopatadine HCl	Pataday™
Onexton™	benzoyl peroxide-clindamycin topical gel	clindamycin topical gel, erythromycin-benzoyl peroxide gel

*Physicians may request coverage of these products using the Prescription Drug Medication Request Form, which can be accessed online in Highmark's Provider Resource Center; under *Provider Forms*, select *Miscellaneous Forms*, and select the form titled *Request for Non-Formulary Drug Coverage*.

Table 3: Additions to the Specialty Tier Copay Option

*Note: The specialty tier does not apply to Highmark Delaware members; see Highmark Delaware's online Provider Resource Center and access the *Pharmacy/Formulary Information* link for details on the formularies and formulary options that apply to Highmark Delaware members.

(Effective upon completion of internal review and operationalization unless otherwise noted)

Brand Name	Generic Name
Lynparza™	olaparib
Cosentyx™	secukinumab
Natpara®	parathyroid hormone
Lenvima™	lenvatinib
Ibrance®	palbociclib
Farydak®	panobinostat

Table 4: Products To Be Removed – effective July 1, 2015

Product Name	Generic Name	Preferred Alternatives
Actonel®	risedronate	ibandronate, risedronate
Celebrex®	celecoxib	celecoxib, ibuprofen
Oxsoralen-Ultra®	methoxsalen	methoxsalen
Enjuvia®	synthetic conjugated estrogens	estradiol, Premarin
Rapamune®	sirolimus	sirolimus
Niaspan®	niacin ER	niacin ER
Xenical®	orlistat	Provider discretion

B. Changes to the Highmark Progressive Formulary and the Highmark Health Care Reform Progressive Formulary

*Note: The Progressive Formulary does not apply to Highmark Delaware members; see Highmark Delaware's online Provider Resource Center and access the *Pharmacy/Formulary Information* link for details on the formularies and formulary options that apply to Highmark Delaware members.

For your convenience, you may search the Highmark Progressive Formulary or the Highmark Health Care Reform Progressive Formulary online at <http://highmark.formularies.com>. Note: You must click the hyperlink for the appropriate formulary.

Table 1: Formulary Updates (All products added to the formulary effective immediately unless otherwise noted)

Brand Name	Generic Name	Tier	Comments/Preferred Alternatives
Items listed below are preferred products			
Prezcobix™	darunavir/cobicistat	Tier 2 – Preferred Brand	For the treatment of HIV-1 infection in combination with other antiretroviral agents for treatment-naïve and treatment-experienced adults
Evotaz™	atazanavir/cobicistat	Tier 2 – Preferred Brand	For the treatment of HIV-1 infection in combination with other antiretroviral agents for treatment-naïve and treatment-experienced adults
Dutrebis™	lamivudine/raltegravir	Tier 2 – Preferred Brand	For the treatment of HIV-1 infection
Gilenya®	fingolimod	Tier 3 —Preferred Specialty	For the treatment of multiple sclerosis <i>Effective Date: 04/01/2015</i>
Items listed below are non-preferred products			
Lynparza™	olaparib	Tier 4 – Non-preferred Specialty	Provider discretion
Savaysa	edoxaban	Tier 3 – Non-preferred Brand	warfarin
Cosentyx™	secukinumab	Tier 4 – Non-preferred Specialty	Humira®, Enbrel®
Natpara®	parathyroid hormone	Tier 4 – Non-preferred Specialty	Provider discretion
Xtoro™	finfloxacin otic susp.	Tier 3 – Non-preferred Brand	acetic acid, acetic acid/hydrocort, ofloxacin, neomycin/poly/hydrocort
Soolantra™	ivermectin cream	Tier 3 – Non-preferred Brand	metronidazole
Saxenda®	liraglutide (rDNA origin) injection	Tier 3 – Non-preferred Brand	Provider discretion
Namzaric™	memantine HCl & donepezil HCl	Tier 3 – Non-preferred Brand	donepezil, galantamine, Exelon® patch
Rytary™	carbidopa/levodopa	Tier 3 – Non-preferred Brand	carbidopa/levodopa IR
Duopa™	carbidopa/levodopa infusion	Tier 3 – Non-preferred Brand	carbidopa/levodopa IR
Prestalia®	perindopril arginine & amlodipine besylate	Tier 3 – Non-preferred Brand	perindopril, amlodipine
Glyxambi®	empagliflozin/linagliptin	Tier 3 – Non-preferred Brand	Invokana®, Tradjenta®, Januvia®
Lenvima™	lenvatinib	Tier 4 – Non-preferred Specialty	Provider discretion

Ibrance®	palbociclib	Tier 4 – Non-preferred Specialty	anastrazole, letrozole, tamoxifen
Farydak®	panobinostat	Tier 4 – Non-preferred Specialty	Revlimid®
Pazeo™	olopatadine	Tier 3 – Non-preferred Brand	Pataday™
Onexton™	benzoyl peroxide-clindamycin topical gel	Tier 3 — Non-preferred Brand	clindamycin 1%-BP 5% gel, erythromycin-BP 3%-5% gel

***Tier 1:** Preferred generic drugs; **Tier 2:** Preferred brand drugs; **Tier 3:** Non-preferred generic drugs, non-preferred brand drugs, preferred specialty drugs; **Tier 4:** Non-preferred specialty drugs

Table 2. Products To Be Removed – effective July 1, 2015

Product Name	Generic Name	Preferred Alternatives
Rapamune®	sirolimus	sirolimus
Niaspan®	niacin ER	niacin ER
Premarin® cream	conjugated estrogens	Estrace cream
Viagra®	sildenafil	Provider discretion
Xenical®	orlistat	Provider discretion

C. Updates to the Pharmacy Utilization Management Programs

1. Updates to the Prior Authorization Program

Policy Name	Policy Effective Date	Updates and/or Approval Criteria
Lynparza (olaparib)	05/05/2015	When a benefit, coverage of olaparib may be provided when the following criteria have been met: <ul style="list-style-type: none"> • Olaparib is being used as monotherapy in patients with a BRCA mutation as detected by an FDA-approved test in advanced ovarian cancer (ICD 10 C56.9) who have been treated with three or more prior lines of chemotherapy
Cosentyx (secukinumab)	05/05/2015	When a benefit, coverage of secukinumab may be provided when all of the following criteria are met: <ul style="list-style-type: none"> • Secukinumab is to be used for the treatment of moderate to severe psoriasis (ICD-9 696.1, ICD-10 L40.X) AND • The member had an inadequate response to systemic (e.g. methotrexate, cyclosporine) therapy OR phototherapy (e.g. PUVA, UVB) AND • The member has had an adequate trial or experienced intolerance to the preferred biologic products (Enbrel and Humira)
Gattex (teduglutide) — Commercial Only	03/05/2015	Updated approval criteria to include documentation of dietary needs and goals, the ability to ingest solid food, and a pretreatment colonoscopy
Tecfidera (dimethyl fumarate) — Commercial Only	03/05/2015	Update to include recommended baseline CBC with lymphocyte count or CBC with lymphocyte count within 6 months of starting therapy
Human Growth Hormone —	TBD	Updated to include FDA-approved indications, limitations of coverage and modified children's growth velocity requirement

Policy Name	Policy Effective Date	Updates and/or Approval Criteria
Commercial Only		for children less than 3 years of age. Limitations of coverage include: <ul style="list-style-type: none"> Coverage for growth hormone is determined according to individual or group customer benefits Recombinant DNA growth hormone drugs should be prescribed under the supervision of an endocrinologist
Wellbutrin (bupropion)	TBD	Criteria updated to reflect any "FDA-approved indication" instead of any "medical condition"
Kalydeco (ivacaftor)	03/05/2015	Updated to include the extra genetic mutation, R117H, which was recently FDA approved
Jakafi (ruxolitinib)	03/05/2015	Updated to include the expanded indication of polycythemia vera in patients who have had an inadequate response to or are intolerant of hydroxyurea
Immediate Release Fentanyl Citrate	TBD	Criteria were updated to include the requirement of the inability to swallow or the trial of at least one short-acting opioid
Tyrosine Kinase Inhibitors for Thyroid Cancer	TBD	Merged criteria from Caprelsa policy (J-138) and added criteria for Lenvima to align with FDA-approved indication
Imbruvica (ibrutinib)	03/05/2015	Updated policy to reflect new indication of Waldenstrom's macroglobulinemia (WM)
Miscellaneous Immunomodulators	TBD	Added Farydak to this policy with criteria based on FDA-approved indication. Updated policy to be aligned with new FDA indication for use of Revlimid in combination with dexamethasone for the treatment of Multiple Myeloma (MM)
Ibrance (palbociclib)	05/05/2015	When a benefit, palbociclib may be covered when the following criteria are met: <ul style="list-style-type: none"> For ER-positive, HER2-negative metastatic breast cancer in postmenopausal women AND Being used as initial endocrine-based therapy for the member's metastatic disease AND Being used concomitantly with letrozole (Femara)
Provigil (modafinil) & Nuvigil (armodafinil)	03/05/2015	Updated to include International Classification of Sleep Disorders-Third Edition guidance on narcolepsy diagnosis criteria
Xyrem (sodium oxybate)	03/05/2015	Updated to include International Classification of Sleep Disorders-Third Edition guidance on narcolepsy diagnosis criteria
Firazyr (icatibant)	TBD	Updated policy to include International Consensus Algorithm for the diagnosis criteria for hereditary angioedema (HAE) and quantity level management criteria
C1 Esterase Inhibitors	TBD	Updated policy to include International Consensus Algorithm for the diagnosis criteria for HAE
New to Market Drug Policy	TBD	Policy created for new to market drugs which have not been reviewed by the P&T committee. The criteria follow the FDA-approved indication and medically accepted indications for Part D. When a benefit, requests may be approved if the following criteria are met:

Policy Name	Policy Effective Date	Updates and/or Approval Criteria
		<ul style="list-style-type: none"> Drug is considered medically necessary when used for an FDA-approved indication
Topical Patches/Gels (containing capsaicin, menthol and/or lidocaine)	05/31/2015	Excluding coverage of certain DESI (Drug Efficacy Study Implementation) topical patches as their efficacy has not been proven
Horizant (gabapentin enacarbil)	05/05/2015	Added a generic gabapentin step prior to use of Horizant for the treatment of PHN
Saxenda (liraglutide) — Commercial Only	05/05/2015	When a benefit, liraglutide may be covered when the following criteria are met: <ul style="list-style-type: none"> Approved for members 18 years and older with BMI > 30 (obese) OR overweight (BMI ≥27) with at least one weight-related comorbidity Reauthorization requires weight loss of 4% or more from starting weight
Natpara (parathyroid hormone)	05/05/2015	When a benefit, parathyroid hormone may be covered when the following criteria are met: <ul style="list-style-type: none"> It is being used as adjunct therapy to calcium and vitamin D in patients with hypocalcemia associated with hypoparathyroidism

2. Updates to the Managed Prescription Drug Coverage (MRxC) Program

Policy Name	Policy Effective Date	Updates and Automatic Approval Criteria*
Nuedexta (dextromethorphan/quinidine)	03/05/2015	Policy updated with current indication for Nuedexta – to be used for pseudobulbar affect (PBA), regardless of cause
Proton Pump Inhibitors (PPI)	07/14/2015	When a benefit, proton pump inhibitors exceeding the quantity limit may be approved when the following criteria are met: <ul style="list-style-type: none"> Clinical documentation of Zollinger-Ellison syndrome (ZES)
Combination Prescription Drug Safety	06/01/2015	New policy was developed to ensure safe use of the following medications in combination: <ul style="list-style-type: none"> Opiate agonists Benzodiazepines Centrally acting skeletal muscle relaxants
Gralise (gabapentin)	05/05/2015	Added a generic gabapentin step prior to use of Gralise for the treatment of post herpetic neuralgia (PHN)
DPP-IV Inhibitors – Commercial Only	05/05/2015	Addition of Glyxambi as a non-preferred product, requiring trial and failure of two preferred DPP-IV inhibitor-containing products
Extended-Release Venlafaxine	07/14/2015	When a benefit, coverage for additional quantities of extended-release venlafaxine 150mg, up to two units per day, may be covered if the following criteria is met: <ul style="list-style-type: none"> The member has a diagnosis of major depressive disorder (MDD) and has tried and failed the maximum tolerable dose of at least two other antidepressants (e.g., SSRI, TCA, MAOI) AND The member has tried and failed venlafaxine ER 225mg

Atypical Antipsychotics	03/05/2015	Policy updated to include FDA-approved indication of Gilles de la Tourette's and FDA-approved age restrictions for pediatric members
Lidoderm (lidocaine patch) – Commercial Only	03/30/2015	The Commercial policy has been updated to require use of any oral agent first for the treatment of PHN and to allow for the treatment of cancer pain if used as adjunctive therapy or for patients unable to swallow
Leukotriene Modifiers — Commercial Only	11/15/2014	Removed Singulair from policy. Removed coverage criteria for indications that are not FDA approved for Accolate and Zyflo
Terminated Policies		
Cymbalta (duloxetine) – Commercial Only	02/20/2015	Removed policy so members have access to quality generic medications to treat conditions such as diabetic peripheral neuropathy and fibromyalgia

*Standard prior authorization criteria will apply for members who do not meet the automatic approval criteria.

3. Updates to the Quantity Level Limit Program*

(Effective immediately upon completion of internal review and operationalization, unless otherwise noted)

Drug Name	Up to 34-Day Supply Limit (retail)	35- to 90-Day Supply Limit (retail or mail)
AcipHex® 5mg	102 capsules	270 capsules
AcipHex® 10mg	34 capsules	90 capsules
AcipHex® 20mg	68 tablets	180 tablets
Adderall XR®	34 tablets	90 tablets
Avalide®	34 tablets	90 tablets
Avapro®	34 tablets	90 tablets
Azor®	34 tablets	90 tablets
Benicar® 5mg	102 tablets	270 tablets
Benicar® 20mg, 40mg	34 tablets	90 tablets
Benicar® HCT	34 tablets	90 tablets
Concerta®	34 tablets	90 tablets
Cozaar® 25mg	102 tablets	270 tablets
Cozaar® 50mg	68 tablets	180 tablets
Cozaar® 100mg	34 tablets	90 tablets
Cymbalta® 20mg, 60mg	68 capsules	180 capsules
Cymbalta® 30mg	34 capsules	90 capsules
Dexilant 30mg	34 capsules	90 capsules
Dexilant 60mg	68 capsules	180 capsules
Diovan® 40mg, 80mg, 160mg	68 tablets	180 tablets

Eliquis® 2.5mg	68 tablets	180 tablets
Eliquis® 5mg	70 tablets	210 tablets
Esomeprazole strontium 24.65mg	34 capsules	90 capsules
Esomeprazole strontium 49.3mg	68 capsules	180 capsules
Exforge®	34 tablets	90 tablets

Lexapro® solution	680 mL	1,800 mL
Lexapro® 5mg, 20mg	34 tablets	90 tablets
Lexapro® 10mg	51 tablets	135 tablets
Lumigan®	2.5 mL	7.5 mL
Metadate CD™	34 capsules	90 capsules
Methylin®	510 mL	1,350 mL
Nexium® 20mg	34 capsules	90 capsules
Nexium® 40mg	68 capsules	180 capsules
Prilosec®	34 capsules/tablets	90 capsules/tablets
Protonix®	34 tablets	90 tablets
Pradaxa®	68 tablets	180 tablets
Prevacid® 15mg	34 capsules/tablets	90 capsules/tablets
Prevacid® 30mg	68 capsules/tablets	180 capsules/tablets
Ritalin®	102 tablets	270 tablets
Ritalin LA® 10mg, 20mg, 40mg	34 capsules	90 capsules
Ritalin LA® 30mg	68 capsules	180 capsules
Ritalin SR®	102 tablets	270 tablets
Vyvanse®	34 capsules	90 capsules
Wellbutrin SR®	68 tablets	180 tablets
Wellbutrin XL® 150mg	102 tablets	270 tablets
Wellbutrin XL® 300mg	34 tablets	90 tablets
Xarelto® 10mg, 20mg	34 tablets	90 tablets
Xarelto® 15mg	48 tablets	126 tablets
Zegerid®	34 capsules	90 capsules

****Standard prior authorization criteria will apply for members who do not meet the automatic approval criteria, if applicable.***

SECTION II. Highmark Medicare-approved Formularies

A. Changes to the Highmark Medicare-approved 5-Tier Incentive Formulary

The Highmark Pharmacy and Therapeutics Committee has reviewed the medications listed in the tables below. For your convenience, you can search the Highmark Medicare-approved Formularies online at:

<http://client.formularynavigator.com/clients/hm/default.html>.

Table 1: Preferred Products

(Effective immediately pending CMS approval and upon completion of internal review and operationalization, unless otherwise noted)

Brand Name	Generic Name	Alternatives/Comments
Gardasil®9	Human Papillomavirus 9-valent Vaccine, Recombinant	Provider discretion
Bexsero®	meningococcal group B vaccine	Provider discretion
Prezcobix™	darunavir/cobicistat	For the treatment of HIV-1 infection in combination with other antiretroviral agents for treatment-naïve and treatment-experienced adults
Evotaz™	atazanavir/cobicistat	For the treatment of HIV-1 infection in combination with other antiretroviral agents for treatment-naïve and treatment-experienced adults
Dutrebis™	lamivudine/raltegravir	For the treatment of HIV-1 infection

Table 2: Non-Preferred Products

(Effective immediately pending CMS approval and upon completion of internal review and operationalization, unless otherwise noted)

Brand Name	Generic Name	Alternatives/Comments
Savaysa™	edoxaban	Xarelto; Eliquis; Pradaxa
Xtoro™	finfloxacin otic suspension	Acetic acid, acetic acid/hydrocortisone, neomycin/polymyxin B/hydrocortisone, ofloxacin; Ciprodex
Soolantra™	ivermectin cream	metronidazole
Namzaric™	memantine HCl & donepezil HCl	donepezil, galantamine, Exelon patch
Dyloject®	diclofenac sodium injection	ketorolac
Rytary™	carbidopa/levodopa	carbidopa/levodopa IR and ER
Duopa™	carbidopa/levodopa	Provider discretion
Prestalia®	perindopril arginine & amlodipine besylate	perindopril, amlodipine
Glyxambi®	empagliflozin/linagliptin	Invokana, Tradjenta, Januvia
Pazeo™	olopatadine HCl	Pataday
Onexton™	benzoyl peroxide-clindamycin topical gel	clindamycin 1%-BP 5% gel; erythromycin-BP 3%-5% gel

B. Changes to the Highmark Medicare-approved 5-Tier Closed Formulary

The Highmark Pharmacy and Therapeutics Committee has reviewed the medications listed in the tables below. For your convenience, you can search the Highmark Medicare-approved Formularies online at:

<http://client.formularynavigator.com/clients/hm/default.html>. Note: You must click the hyperlink to access the 5-Tier Closed Formulary.

Table 1: Preferred Products

(Effective immediately pending CMS approval and upon completion of internal review and operationalization, unless otherwise noted)

Brand Name	Generic Name	Alternatives/Comments
Gardasil®9	Human Papillomavirus 9-valent Vaccine, Recombinant	Vaccine used to prevent infections/disease caused by 9 types of HPV
Bexsero	Meningococcal group B vaccine	Vaccine, indicated for active immunization to prevent invasive disease caused by Neisseria meningitides serogroup B in patients 10-25 years of age
Prezcobix™	darunavir/cobicistat	For the treatment of HIV-1 infection in combination with other antiretroviral agents for treatment-naïve and treatment-experienced adults
Evotaz™	atazanavir/cobicistat	For the treatment of HIV-1 infection in combination with other antiretroviral agents for treatment-naïve and treatment-experienced adults
Dutrebis™	lamivudine/raltegravir	For the treatment of HIV-1 infection

Table 2: Non-Preferred Products

(Effective immediately pending CMS approval and upon completion of internal review and operationalization)

Brand Name	Generic Name	Preferred Alternatives/Comments
Savaysa™	edoxaban	Xarelto; Eliquis; Pradaxa
Xtoro™	finfloxacin otic suspension	Acetic acid, acetic acid/hydrocortisone, neomycin/polymyxin B/hydrocortisone, ofloxacin; Ciprodex
Duopa™	carbidopa/levodopa	carbidopa/levodopa IR and ER
Prestalia®	perindopril arginine & amlodipine besylate	perindopril, amlodipine

Table 3: Products Not Added*

(Effective immediately pending CMS approval and upon completion of internal review and operationalization)

Brand Name	Generic Name	Preferred Alternatives/Comments
Soolantra™	ivermectin cream	Finacea, metronidazole
Namzaric™	memantine HCl & donepezil HCl	donepezil, Galantamine, Exelon patch
Dyloject®	diclofenac sodium injection	ketorolac
Rytary™	carbidopa/levodopa	carbidopa/levodopa IR and ER
Glyxambi®	empagliflozin/linagliptin	Invokana, Tradjenta, Januvia
Pazeo™	olopatadine HCl	Pataday
Onexton™	benzoyl peroxide-clindamycin topical gel	Clindamycin 1%-BP 5% gel; Erythromycin-BP 3%-5% gel

*Physicians may request coverage of these products using the Prescription Drug Medication Request Form, which can be accessed online in Highmark's Provider Resource Center; under *Provider Forms*, select *Miscellaneous Forms*, and select the form titled *Request for Non-Formulary Drug Coverage*.

C. Additions to the Specialty Tier

(Effective immediately pending CMS approval and upon completion of internal review and operationalization)

Brand Name	Generic Name
Blincyto™	blinatumomab
Lynparza™	olaparib
Rapivab™	peramivir
Opdivo®	nivolumab
Cosentyx™	secukinumab
Natpara®	parathyroid hormone
Signifor® LAR	pasireotide
Zerbaxa™	ceftolozane/tazobactam
Lenvima™	lenvatinib
Ibrance®	palbociclib
Farydak®	panobinostat

D. Updates to the Pharmacy Utilization Management Programs

1. Updates to the Prior Authorization Program

Policy Name	Policy Effective Date	Updates and Approval Criteria
Blincyto (blintumomab) — Medicare Only	TBD	A new policy was created to ensure appropriate utilization, for the treatment of Philadelphia chromosome-negative relapsed or refractory B-cell precursor acute lymphoblastic leukemia (ALL)
Gattex (teduglutide) — Medicare Only	01/01/2016	New separate policy from commercial, which includes updated criteria for documentation of dietary needs and goals, the ability to ingest solid food, and a pretreatment colonoscopy
Tecfidera (dimethyl fumarate) — Medicare Only	01/01/2016	New separate policy from commercial, includes recommended baseline CBC with lymphocyte count or CBC with lymphocyte count within 6 months of starting therapy
Human Growth Hormone — Medicare Only	TBD	Updated to include FDA-approved indications and modified children's growth velocity requirement for children less than 3 years of age
Acthar HP — Medicare Only	03/05/2015	Addition of new criteria to require failure for classes of medications other than corticosteroids for nephritic syndrome. Addition of new medically accepted indications with criteria for approval
Provigil (modafinil) & Nuvigil (armodafinil) — Medicare Only	03/05/2015	Updated to include International Classification of Sleep Disorders-Third Edition guidance on narcolepsy diagnosis criteria
Hepatitis C Oral Agents — Medicare Only	TBD	Removed creatinine clearance from approval criteria, included ledipasvir/sofosbuvir (Harvoni) management for treatment-naive members without cirrhosis pretreatment HCV RNA < 6 million IU/mL (12-week treatment duration) and included sofosbuvir (Sovaldi) treatment for genotype 6 patients within approval criteria to be in line with CMS recommendations
Administrative Prior Auth for Medicare Part D Plans	TBD	Added a section with B vs D criteria for injectable osteoporosis agents. Expanded the section on B vs D criteria for drugs administered via infusion pump. Added a section about

Policy Name	Policy Effective Date	Updates and Approval Criteria
		coverage of compound medications
C1 Esterase Inhibitors	TBD	Updated policy to include International Consensus Algorithm for the diagnosis criteria for hereditary angioedema (HAE)
