

An Open Letter to the People of Western Pennsylvania

# Putting people first is Highmark Health's pledge to you and your family

## A 75-year legacy of support

For more than 75 years, our health plan has served as a cornerstone of Western Pennsylvania with a mission to provide high-quality, affordable health care to our neighbors and support and foster healthy communities.

## More than 10,300 doctors available to you

Our hospital system, Allegheny Health Network, in collaboration with the area's community hospitals and doctors, has a more than one hundred fifty year commitment to providing direct health care that we continue to build on today. Allegheny Health Network includes 8 well-respected hospitals with more than 2,100 doctors. We continue to invest, so the people of this region have access to a world-class hospital system. Highmark's insurance plan offers you a network of more than 50 community hospitals and 10,300 doctors in Western Pennsylvania.

## A commitment to the future

Our past and our future are inextricably linked with this community, and we are building the health care system of the future where everything is centered on you. The community has our unwavering commitment to help you and your family get the best possible care at affordable prices. We are proud that over 10,000 employers have chosen Highmark for their employees. When you choose us, you choose to stand with local people who are your friends, neighbors and co-workers.

## You deserve honesty and clarity

A system built on the right values — putting people first — means not seeking to confuse you or putting you and your family in the middle of an unsettled health care marketplace. It's time to do better for you and for our region. You have our commitment on that, and it's what you should expect of other health plans and hospitals.

Sincerely,

**The 37,500 employees of Highmark Health,  
Allegheny Health Network and Highmark Inc.**
