2015 QUALITY PERFORMANCE MEASURES

2015 Quality Blue Physician P4V Program Mastheads

The 2015 Quality Blue Physician P4V Program mastheads with the detailed measure specifications are now available for your practice to access by selecting the *Provider Resource Center*, choosing the **Quality Blue Physician Program** link on the left hand side, and reviewing the second page of the *Quality Blue Physician Pay-for-Value Program* site.

There are 29 scored measures and a total of 34 profiled measures 22 of which were carried over from 2014. Make note of those measures marked with an asterisk as they have important claim filing requirements and explanation of the national requirements. Although they are similar, the coding of the measures in the Quality Blue Physician P4V program is different.

Please take the time to review, and contact your Highmark Provider Relations Representative or Clinical Transformation Consultant if you have any questions.
