REVISED MASTHEADS FOR 2015 - ADMINISTRATIVE

The 2015 Quality Blue Physician Pay-for-Value Program Mastheads were revised to accurately represent the documentation to match exactly the way the measures are calculated and reported in the reports section of the User Interface. The measures have not changed and this message is to communicate administrative updates only. Updates to the mastheads are needed periodically for clarification and corrections to NCQA HEDIS® technical specifications and releases from the National Drug Code lists.

Please refer to the attached [Program News document](#) to summarize the documentation revisions for each of the measures.
