

SPECIAL eBULLETIN

FOR PROFESSIONAL PROVIDERS

Republished JUNE 22, 2018

Originally web published DEC. 27, 2017

ATTN: HOSPITALISTS and PCP'S IN A SPECIALIST ROLE

Revised effective date, included provider types and content noted in strikethroughs and red font above and below.

CORRECTION TO PAYMENT RATES

Effective ~~March 1~~ **Sept. 1**, 2018, Highmark will adjust the payment rates for providers acting in a hospitalist capacity **and PCP specialties practicing in a specialist role**. Recent system enhancements now allow us to differentiate between hospitalists **and PCP specialties practicing in a specialist role from** providers practicing in traditional primary care settings. As a result, our fees will be administered correctly beginning ~~March 1~~ **Sept. 1**, 2018.

There will be no change for providers who are acting and billing as primary care physicians.

Fee information is available via Highmark NaviNet® and will be viewable on ~~March 1~~, **Sept. 1**, 2018, the effective date. If you have questions, please contact your Highmark Provider Account Liaison. If you don't have NaviNet, visit navinet.net to gain access to the system.

We appreciate your service to our members, and we value our long-standing partnership in caring for the residents of Delaware.
