NDC POLICY CHANGES: MORE HCPCS CODES REQUIRE NDC SUBMISSION

As stated in a previous Special Bulletin (July 27, 2015), Highmark requires the submission of National Drug Code (NDC) information on drug claims billed under the medical benefit for Highmark members. NDC information is the 11-digit NDC+NDC quantity. An important change to this process will take effect in April 2016.

ADDITIONAL HCPCS REQUIRE NDC SUBMISSION

Effective April 4, 2016, an additional 151 codes will be added to list of HCPCS codes that require NDC information to be reported. Providers can access the list under *Administrative Reference Materials* on the Provider Resource Center. The [additional codes](#) will be available via a link at the bottom of the current list, starting Feb. 4.

We appreciate the quality care you provide to our members. Thank you for your continued support.
