

TODAY'S MESSAGE

ICD-10: Mass Claim Adjustment Forms Updated

Attention: Medicare Advantage Stars Program Participants!

Providers who participate in the Medicare Advantage Stars Program now have access to the Mass Claim Adjustment forms that have been updated to include the new ICD -10 coding format, effective Oct., 1, 2015. The updated forms will replace the existing Mass Claim Adjustment forms. These forms will ensure provider's process claims with the appropriate coding and will reduce potential delays with claims processing.

The forms are available on NaviNet® Plan Central and the Provider Resource Center on the Medicare Stars Advantage site or, you may access the forms by clicking on the following links:
