ATTENTION WEST VIRGINIA FAMILY HEALTH PROVIDERS: NEW WEB PAGE ALLOWS EASY ACCESS TO WVFH WEBSITE

Highmark West Virginia has made it easy for you to access [West Virginia Family Health's](#) (WVFH) website. Now the WVFH Web page is available on Highmark West Virginia's Provider Resource Center. The new Web page not only gives you convenient access to the WVFH website, it also includes links to the WVFH Primary Care Incentive Program details. You can find the Web page on the Highmark West Virginia Provider Resource Center by selecting *West Virginia Family Health*.

If you're looking for information about the WVFH Primary Care Incentive Program, the Web page provides links to the *2015 West Virginia Family Health Primary Care Incentive Program Manual* and the 2015 Provider HEDIS Tip Sheets. The information in the *Program Manual* will assist Primary Care Practices (PCPs) in their understanding of the incentive program. The Tip Sheets will help PCPs improve their quality scores on HEDIS measures.

The WVFH Medicaid Primary Care Incentive Program is structured to assess and improve the process of care for PCPs serving WVFH Medicaid members. PCPs participating in the incentive program will be eligible for incentive opportunities based on the number of care gaps closed during each year.

For more information about WVFH, including current news, visit the WVFH website often.
