

DOCUMENTATION REFERENCE CARD

IMMUNOCOMPROMISED STATE / IMMUNODEFICIENCY STATUS

Documentation Considerations

- Identify specific cause for immunocompromised state if applicable (e.g. medications, external causes, or additional underlying conditions)
- Be as specific as possible with cause of the condition
- Document any adverse effects or clinical manifestations

Diagnosis Considerations

- Evaluate pertinent lab values
- Validate any family history/genetic predisposition
- Correlate any diagnostic test with clinical significance
- Identify any antibody defects

Additional Considerations

- Link all medications, external causes, or additional conditions to the immunocompromised state
- Document and link underlying causes with immunodeficient state
- Link disorder with treatment(s)
- Note any specialist follow-up with diagnoses
- Document conditions as historical only if they have been resolved

This information is issued on behalf of Highmark Blue Shield and its affiliated Blue companies, which are independent licensees of the Blue Cross Blue Shield Association. Highmark Inc. d/b/a Highmark Blue Shield and certain of its affiliated Blue companies serve Blue Shield members in 21 counties in central Pennsylvania and 13 counties in northeastern New York.
