

**Highmark Wholecare Medicaid and
Highmark Wholecare Medicare Assured
Physical Medicine Covered Procedures and Code Matrix 2021**

The matrix below contains all of the CPT 4 and HCPCS codes for which Magellan Healthcare¹ manages on behalf of Highmark Wholecare Medicare Assured.

***Please note:** Services rendered in a hospital's emergency room, or patient receiving care in a hospital as an inpatient or observation status, acute rehab hospital as an inpatient or a skilled nursing facility (POS 31 and 32) as an inpatient are not managed by Magellan Healthcare.

MASTER CODE LIST		
20560	Needle insertion(s) without injection(s); 1 or 2 muscle(s)	Physical Therapy
20561	3 or more muscles	Physical Therapy
64550	Application of surface (transcutaneous) neurostimulator	Physical/Occupational
92507	Treatment of speech, language, voice, communication, and/or auditory processing disorder; individual	Speech Therapy
92508	Treatment of speech, language, voice, communication, and/or auditory processing disorder; group, 2 or more individuals	Speech Therapy
92526	Treatment of swallowing dysfunction and/or oral function for feeding	Speech Therapy
92606	Therapeutic service(s) for the use of non-speech-generating device, including programming and modification	Speech Therapy
92612	Flexible endoscopic evaluation of swallowing by cine or video recording	Speech Therapy
92613	Flexible endoscopic evaluation of swallowing by cine or video recording; interpretation and report only	Speech Therapy
92614	Flexible endoscopic evaluation, laryngeal sensory testing by cine or video recording	Speech Therapy
92615	Flexible endoscopic evaluation, laryngeal sensory testing by cine or video recording; interpretation and report only	Speech Therapy
92616	Flexible endoscopic evaluation of swallowing and laryngeal sensory testing by cine or video recording	Speech Therapy
92617	Flexible endoscopic evaluation of swallowing and laryngeal sensory testing by cine or video recording; interpretation and report only	Speech Therapy
95851	Range of motion measurements and report (separate procedure); each extremity (excluding hand) or each trunk section (spine)	Other

¹National Imaging Associates, Inc. is a subsidiary of Magellan Healthcare, Inc.

95852	Range of motion measurements and report (separate procedure); hand, with or without comparison with normal side	Other
96105	Assessment of aphasia (includes assessment of expressive and receptive speech and language function, language comprehension, speech production ability, reading, spelling, writing, e.g., by Boston Diagnostic Aphasia Examination) with interpretation and report, per hour	Speech Therapy
96125	Standardized cognitive performance testing (e.g., Ross Information Processing Assessment) per hour of a qualified health care professional's time, both face-to-face time administering tests to the patient and time interpreting these test results and preparing the report	Speech Therapy
97010	Application of a modality to 1 or more areas; hot or cold packs	Physical/Occupational
97012	Application of a modality to 1 or more areas; traction, mechanical	Physical/Occupational
97014	Application of a modality to 1 or more areas; electrical stimulation (unattended)	Physical/Occupational
97016	Application of a modality to 1 or more areas; vasopneumatic devices	Physical/Occupational
97018	Application of a modality to 1 or more areas; paraffin bath	Physical/Occupational
97022	Application of a modality to 1 or more areas; whirlpool	Physical/Occupational
97024	Application of a modality to 1 or more areas; diathermy (e.g., microwave)	Physical/Occupational
97026	Application of a modality to 1 or more areas; infrared	Physical/Occupational
97028	Application of a modality to 1 or more areas; ultraviolet	Physical/Occupational
97032	Application of a modality to 1 or more areas; electrical stimulation (manual), each 15 minutes	Physical/Occupational
97033	Application of a modality to 1 or more areas; iontophoresis, each 15 minutes	Physical/Occupational
97034	Application of a modality to 1 or more areas; contrast baths, each 15 minutes	Physical/Occupational
97035	Application of a modality to 1 or more areas; ultrasound, each 15 minutes	Physical/Occupational
97036	Application of a modality to 1 or more areas; Hubbard tank, each 15 minutes	Physical/Occupational
97039	Unlisted modality (specify type and time if constant attendance)	Physical/Occupational
97110	Therapeutic procedure, 1 or more areas, each 15 minutes; therapeutic exercises to develop strength and endurance, range of motion and flexibility	Physical/Occupational
97112	Therapeutic procedure, 1 or more areas, each 15 minutes; neuromuscular reeducation of movement, balance, coordination, kinesthetic sense, posture, and/or proprioception for sitting and/or standing activities	Physical /Occupational

97113	Therapeutic procedure, 1 or more areas, each 15 minutes; aquatic therapy with therapeutic exercises	Physical Therapy
97116	Therapeutic procedure, 1 or more areas, each 15 minutes; gait training (includes stair climbing)	Physical Therapy
97124	Therapeutic procedure, 1 or more areas, each 15 minutes; massage, including effleurage, petrissage and/or tapotement (stroking, compression, percussion)	Physical/Occupational
97129	Therapeutic interventions that focus on cognitive function (e.g., attention, memory, reasoning, executive function, problem solving, and/or pragmatic functioning) and compensatory strategies to manage the performance of an activity (e.g., managing time or schedules, initiating, organizing, and sequencing tasks), direct (one-on-one) patient contact; initial 15 minutes (Report 97129 only once per day)	Speech Therapy
+97130	each additional 15 minutes (list separately in addition to code for primary procedure)	Speech Therapy
97139	Unlisted therapeutic procedure (specify)	Occupational Therapy
97140	Manual therapy techniques (e.g., mobilization/manipulation, manual lymphatic drainage, manual traction), 1 or more regions, each 15 minutes	Physical/Occupational
97150	Therapeutic procedure(s), group (2 or more individuals)	Physical/Occupational
97161	Physical therapy evaluation: low complexity, requiring these components: A history with no personal factors and/or comorbidities that impact the plan of care; An examination of body system(s) using standardized tests and measures addressing 1-2 elements from any of the following: body structures and functions, activity limitations, and/or participation restrictions; A clinical presentation with stable and/or uncomplicated characteristics; and Clinical decision making of low complexity using standardized patient assessment instrument and/or measurable assessment of functional outcome. Typically, 20 minutes are spent face-to-face with the patient and/or family.	Physical Therapy
97162	Physical therapy evaluation: moderate complexity, requiring these components: A history of present problem with 1-2 personal factors and/or comorbidities that impact the plan of care; An examination of body systems using standardized tests and measures in addressing a total of 3 or more elements from any of the following: body structures and functions, activity limitations, and/or participation restrictions; An evolving clinical presentation with changing characteristics; and Clinical decision making of moderate complexity using standardized patient assessment instrument and/or measurable assessment of functional outcome. Typically, 30 minutes are spent face-to-face with the patient and/or family.	Physical Therapy

97163	<p>Physical therapy evaluation: high complexity, requiring these components: A history of present problem with 3 or more personal factors and/or comorbidities that impact the plan of care; An examination of body systems using standardized tests and measures addressing a total of 4 or more elements from any of the following: body structures and functions, activity limitations, and/or participation restrictions; A clinical presentation with unstable and unpredictable characteristics; and Clinical decision making of high complexity using standardized patient assessment instrument and/or measurable assessment of functional outcome. Typically, 45 minutes are spent face-to-face with the patient and/or family.</p>	Physical Therapy
97164	<p>Re-evaluation of physical therapy established plan of care, requiring these components: An examination including a review of history and use of standardized tests and measures is required; and Revised plan of care using a standardized patient assessment instrument and/or measurable assessment of functional outcome Typically, 20 minutes are spent face-to-face with the patient and/or family.</p>	Physical Therapy
97165	<p>Occupational therapy evaluation, low complexity, requiring these components: An occupational profile and medical and therapy history, which includes a brief history including review of medical and/or therapy records relating to the presenting problem; An assessment(s) that identifies 1-3 performance deficits (ie, relating to physical, cognitive, or psychosocial skills) that result in activity limitations and/or participation restrictions; and Clinical decision making of low complexity, which includes an analysis of the occupational profile, analysis of data from problem-focused assessment(s), and consideration of a limited number of treatment options. Patient presents with no comorbidities that affect occupational performance. Modification of tasks or assistance (e.g., physical or verbal) with assessment(s) is not necessary to enable completion of evaluation component. Typically, 30 minutes are spent face-to-face with the patient and/or family.</p>	Occupational Therapy

97166	<p>Occupational therapy evaluation, moderate complexity, requiring these components: An occupational profile and medical and therapy history, which includes an expanded review of medical and/or therapy records and additional review of physical, cognitive, or psychosocial history related to current functional performance; An assessment(s) that identifies 3-5 performance deficits (i.e., relating to physical, cognitive, or psychosocial skills) that result in activity limitations and/or participation restrictions; and Clinical decision making of moderate analytic complexity, which includes an analysis of the occupational profile, analysis of data from detailed assessment(s), and consideration of several treatment options. Patient may present with comorbidities that affect occupational performance. Minimal to moderate modification of tasks or assistance (e.g., physical or verbal) with assessment(s) is necessary to enable patient to complete evaluation component. Typically, 45 minutes are spent face-to-face with the patient and/or family.</p>	Occupational Therapy
97167	<p>Occupational therapy evaluation, high complexity, requiring these components: An occupational profile and medical and therapy history, which includes review of medical and/or therapy records and extensive additional review of physical, cognitive, or psychosocial history related to current functional performance; An assessment(s) that identifies 5 or more performance deficits (i.e., relating to physical, cognitive, or psychosocial skills) that result in activity limitations and/or participation restrictions; and Clinical decision making of high analytic complexity, which includes an analysis of the patient profile, analysis of data from comprehensive assessment(s), and consideration of multiple treatment options. Patient presents with comorbidities that affect occupational performance. Significant modification of tasks or assistance (e.g., physical or verbal) with assessment(s) is necessary to enable patient to complete evaluation component. Typically, 60 minutes are spent face-to-face with the patient and/or family.</p>	Occupational Therapy
97168	<p>Re-evaluation of occupational therapy established plan of care, requiring these components: An assessment of changes in patient functional or medical status with revised plan of care; An update to the initial occupational profile to reflect changes in condition or environment that affect future interventions and/or goals; and A revised plan of care. A formal reevaluation is performed when there is a documented change in functional status or a significant change to the plan of care is required. Typically, 30 minutes are spent face-to-face with the patient and/or family.</p>	Occupational Therapy

97530	Therapeutic activities, direct (one-on-one) patient contact (use of dynamic activities to improve functional performance), each 15 minutes	Physical/Occupational
97533	Sensory integrative techniques to enhance sensory processing and promote adaptive responses to environmental demands, direct (one-on-one) patient contact, each 15 minutes	Occupational Therapy
97535	Self-care/home management training (e.g., activities of daily living (ADL) and compensatory training, meal preparation, safety procedures, and instructions in use of assistive technology devices/adaptive equipment) direct one-on-one contact, each 15 minutes	Physical/Occupational
97537	Community/work reintegration training (e.g., shopping, transportation, money management, avocational activities and/or work environment/modification analysis, work task analysis, use of assistive technology device/adaptive equipment), direct one-on-one contact, each 15 minutes	Occupational Therapy
97542	Wheelchair management (e.g., assessment, fitting, training), each 15 minutes	Physical/Occupational
97750	Physical performance test or measurement (e.g., musculoskeletal, functional capacity), with written report, each 15 minutes	Physical Therapy
97755	Assistive technology assessment (e.g., to restore, augment or compensate for existing function, optimize functional tasks and/or maximize environmental accessibility), direct one-on-one contact, with written report, each 15 minutes	Physical Therapy
97760	Orthotic(s) management and training (including assessment and fitting when not otherwise reported), upper extremity(s), lower extremity(s) and/or trunk, each 15 minutes	Physical/Occupational
97761	Prosthetic training, upper and/or lower extremity(s), each 15 minutes	Physical/Occupational
97763	Orthotic prosthetic management and/or training upper extremity, lower extremity and/or trunk, each 15 minutes	Physical/Occupational
G0129	Occupational therapy services requiring the skills of a qualified occupational therapist, furnished as a component of a partial hospitalization treatment program, per session (45 minutes or more)	Occupational Therapy
G0151	Services performed by a qualified physical therapist in the home health or hospice setting, each 15 minutes	Physical Therapy
G0152	Services performed by a qualified occupational therapist in the home health or hospice setting, each 15 minutes	Occupational Therapy
G0153	Services performed by a qualified speech-language pathologist in the home health or hospice setting, each 15 minutes	Speech Therapy

G0283	Electrical stimulation (unattended), to one or more areas for indication(s) other than wound care, as part of a therapy plan of care	Physical/Occupational
S8948	Application of a modality (requiring constant provider attendance) to one or more areas; low-level laser; each 15 minutes	Physical/Occupational
S9128	Speech therapy, in the home, per diem	Speech Therapy
S9129	Occupational therapy, in the home, per diem	Occupational Therapy
S9131	Physical therapy; in the home, per diem	Physical Therapy
