Disclaimer

Highmark Wholecare [™] medical policy is intended to serve only as a general reference resource regarding coverage for the services described. This policy does not constitute medical advice and is not intended to govern or otherwise influence medical decisions.

Policy Statement

Highmark Wholecare[™] may provide coverage under the medical-surgical benefits of the Company's Medicare products for medically necessary Cardiac Rhythm Device Evaluation Services.

This policy is designed to address medical necessity guidelines that are appropriate for the majority of individuals with a particular disease, illness or condition. Each person's unique clinical circumstances warrant individual consideration, based upon review of applicable medical records.

Procedures

- Electronic analysis to monitor the patient's pacemaker or cardioverter-defibrillator is medically
 necessary on a regular basis to evaluate the device. Pre- and post-operative evaluation of the cardiac
 rhythm device in patients with implantable cardioverter-defibrillators (ICDs), or who are pacer
 dependent, may be necessary because electromagnetic interference can alter the function of these
 devices, especially ICDs, in unpredictable ways. They may need to be re-programmed before and after
 a surgical procedure.
- 2. Please review the specific National Coverage Determination (NCD), Local Coverage Determination (LCD), and/or Local Coverage Article (LCA) information, as well as other CMS sources, using the links below.
- 3. Post-Payment Audit Statement

The medical record must include documentation that reflects the medical necessity criteria and is subject to audit by Highmark WholecaresM at any time pursuant to the terms of your provider agreement.

3. Place of Service

Electronic analysis of a pacing cardioverter-defibrillator is performed in an office or outpatient hospital setting.

Coverage Determination and Links

Highmark WholecaresM follows the coverage determinations made by CMS as outlined in either the NCD, or the state-specific LCD, and/or LCA.
