

EFFECTIVE DATE 01/17/22 FOR MEDICAID

The following items always require authorization:

Inpatient Services

- Hospital inpatient admissions
- All other inpatient admissions (e.g. acute, skilled nursing facility, and rehabilitation)
- Services rendered at or provided by a non-par provider
- Covered services that do not have a fee attached
- Musculoskeletal Surgery Procedures: Knee/Hip/Shoulder, and Cervical Lumbar Spine
 - [Link to NIA](#)

Outpatient Services

- Potentially experimental, investigational or cosmetic services
- Home Health Care
- Prosthetics
- Power Wheelchairs
- Hospice Services
- Radiology Management, Physical Therapy, Occupational Therapy, Speech Therapy, Musculoskeletal Surgery Procedures (MSK), Trigger Point Injections and Interventional Pain Management
 - [Link to NIA](#)
- Sterilization/Abortion Services
 - Please contact Adagio
- Services rendered at or provided by a non-par provider
- Covered services that do not have a fee attached
- **As of January 1, 2020**, all managed care organizations (MCOs) that provide outpatient drug services to Medicaid beneficiaries in Pennsylvania and the State Fee-for-Service (FFS) program will use the same Preferred Drug List (PDL). Any drugs designated as non-preferred will require prior authorization. In addition, the PA Medicaid MCOs and the FFS program will apply the same clinical prior authorization criteria to determine medical necessity for medications included on the PDL. You may access the complete statewide PDL now through the [Department of Human Services](#) website. Please note that all requirements and conditions governing coverage of outpatient drugs, including but not limited to prior authorization criteria, apply whether a drug is provided through the Pharmacy benefit or Medical benefit.
- Chemotherapeutic drugs, symptom management drugs and supportive agents will require authorization when prescribed for a member 21 years of age or older and being used for an oncology related indication. The Gateway Health Provider Portal Procedure Code Lookup Tool below can be used to determine if the medication being administered requires authorization.
- Miscellaneous J-codes (J3490, J3590, J8499, J8999, J9999) may require authorization on a drug-by-drug basis. The authorization information **will not** be identified in the Provider Search Tool due to system limitations. Please refer to notifications of authorization requirements posted on the provider update webpage: <https://www.HighmarkWholecare.com/provider/medicaid-resources/medicaid-provider-updates>. When permanent HCPCS codes are assigned to medications, the lookup tool below will be updated to reflect the authorization requirement.

Please utilize the Portal Code Search Tool to research authorization requirements for all other codes currently requiring authorization. The reference list attached outlines codes requiring authorization not included in the services listed above.

Attention:

- Non covered benefits will not be paid unless special circumstances exists. Always review member benefits to determine covered & non-covered services.
- Authorization does not guarantee payment of claims. A service or supply will be reimbursed by Highmark Wholecare only if it is medically necessary, a covered service, and provided to an eligible member.
 - The authorization process continues to be subject to the maximum unit and program exception policies
